INDIA RICE MILL!
CONSIDER OF
MISSION & FREMONT STS., SAN FRANCISCO, CAL.
THIS INDIA RICE MILL, AFTER SIXTEEN YEARS of practical experience and improvement, is now the nearest to perfection of any of the Rice Mills of the world. In the thoroughness of cleaning and polishing, it stands unrivaled, and in point of economy, it is the most economical of any of the Rice Mills of the world. It is the only one of the kind in the United States. The **INDIA RICE MILL** is now in Perfect Running Order for the

GRATEFUL—COMFORTING.
EPPS'S COCOA!
BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operation of digestion and nutrition, and by a careful application of the fine properties of the most selected Cocoa, Mr. Epps has provided our breakfast tables with a delicious, flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to seize upon our weakness. We may escape many a fatal illness by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the CIVIL SERVICE GAZETTE.
Made simply with boiling water or milk. Sold only in packets or tins, labeled.

SATURDAY, DECEMBER 20.
A Hawaiian Abroad.
PHILADELPHIA, Nov. 16th, 1879.
DEAR ADVERTISER: Fourteen days and a few hours of traveling time have brought me to this city of "brotherly love"—7 days and 30 minutes on the Pacific, 3 days in San Francisco and 7 minutes on the railroad, and 5000 miles were accomplished.
While in San Francisco I called upon the Post Master General, James C. Coy. On my explaining to him that I thought there might be letters there addressed to me at the Islands, he immediately sent a messenger for the clerk in whose Department it was, and ordered him to make the search. The clerk soon returned with his report that he had overhauled the entire island mail and produced the letters he had found for me. I expressed some surprise at this ready compliance with my request, and Gen. Coy said that even in the British Post Office where so much strictness existed, this was left by the Regulations entirely to the discretion of the Post Masters. The General expressed great interest in our Islands, and said that the Assistant Post Master, Mr. Doherty, was in the habit of affixing the short stamps to letters directed there. I met Mr. Doherty and thanked him for his kindness to our Island Community. He said he kept no account of his expenditures for stamps, and could not tell how low he came out, that he received a good many remittances and many kind letters from those to whom letters had thus been forwarded, and in one instance from a lady whose remittance was thus sent her, the delay of which would have been serious to her—which was pay enough for him.
Both Mr. Coy and Mr. Doherty spoke of their desire to show our Island community all the favors they could, and these officials live up to the doctrine that the P. O. is for the accommodation of the public. Your readers should be informed of the new Rule of the U. S. Post Office, that all letters should have the name of the State upon them, or they will be sent to the Dead Letter Office. For instance, the direction to Smith, "Boston," does not mean necessarily Boston, Massachusetts, and the letter would go to the Dead Letter Office.
We found a beautiful thin blanket of snow on the Sierra Nevada, on the Wahatch Black Hills and Laramie plains, and a good touch of Jack Frost while crossing the Rocky Mountains, but as we ran eastward the weather was milder, and between Omaha and Chicago we had severe rain.
This affected the comfort of the thousands who crowded the city to receive Grant,—the "Grant boom" is tremendous. We found the city swarming with people, every Hotel abuzz with flags and electric lights and the utmost enthusiasm prevailing. I am not the only one who predicts that the popular feeling will sweep Grant into a nomination when the Republican Convention meets, and every one concedes that Grant nominated is Grant elected.
The favorites among the good democrats for Presidential honors are Senator Bayard and Hancock, and I hear Sherman and Blaine more frequently mentioned among Republicans than any other names.
The revival of trade in the States is universal and most encouraging. Every industry is now being pushed to the utmost.
The staples have risen in price—especially iron, which has gone up 50 pr. ct. in 60 days. A prominent manufacturer of cast iron car wheels in this city tells me that his works are driven to their utmost capacity, and he can only fill the orders of his old customers.
I find that in the States East of the Rocky Mountains Greenbacks of the U. S. or notes of the National Banks, which are equivalent, are the actual circulating medium. That silver is only used for change and as a subsidiary. I rarely have seen more than two dollars paid out in silver at once. Small gold but little in circulation, and the larger pieces of gold, \$20 or \$10, are only found at the banks. Where the paper calls for the gold, the paper, as being lighter and more convenient, will be preferred. I wish our Hawaiian paper or Certificate of Deposit called for gold; they frequently would draw the gold if they were all presented, and they would be as good as the gold if so expressed.
As soon as the silver coinage of the United States becomes sufficient for the circulating medium of the country, it will displace the gold, and then gold and paper will be at a premium or, rather, silver will be at a discount all over the Union. No time will be more opportune for us than the next Session of the Legislature to amend our law and lessen the amount for which silver may be a tender, and to put the gold law vigorously into operation.
I expect to meet Mr. Carter in Washington next week, and to witness with me the unveiling of the statue to Gen. Thomas. I hear that our Minister, Judge Allen, is still at his home in Bangor.

DEAR ADVERTISER: Fourteen days and a few hours of traveling time have brought me to this city of "brotherly love"—7 days and 30 minutes on the Pacific, 3 days in San Francisco and 7 minutes on the railroad, and 5000 miles were accomplished.
While in San Francisco I called upon the Post Master General, James C. Coy. On my explaining to him that I thought there might be letters there addressed to me at the Islands, he immediately sent a messenger for the clerk in whose Department it was, and ordered him to make the search. The clerk soon returned with his report that he had overhauled the entire island mail and produced the letters he had found for me. I expressed some surprise at this ready compliance with my request, and Gen. Coy said that even in the British Post Office where so much strictness existed, this was left by the Regulations entirely to the discretion of the Post Masters. The General expressed great interest in our Islands, and said that the Assistant Post Master, Mr. Doherty, was in the habit of affixing the short stamps to letters directed there. I met Mr. Doherty and thanked him for his kindness to our Island Community. He said he kept no account of his expenditures for stamps, and could not tell how low he came out, that he received a good many remittances and many kind letters from those to whom letters had thus been forwarded, and in one instance from a lady whose remittance was thus sent her, the delay of which would have been serious to her—which was pay enough for him.
Both Mr. Coy and Mr. Doherty spoke of their desire to show our Island community all the favors they could, and these officials live up to the doctrine that the P. O. is for the accommodation of the public. Your readers should be informed of the new Rule of the U. S. Post Office, that all letters should have the name of the State upon them, or they will be sent to the Dead Letter Office. For instance, the direction to Smith, "Boston," does not mean necessarily Boston, Massachusetts, and the letter would go to the Dead Letter Office.
We found a beautiful thin blanket of snow on the Sierra Nevada, on the Wahatch Black Hills and Laramie plains, and a good touch of Jack Frost while crossing the Rocky Mountains, but as we ran eastward the weather was milder, and between Omaha and Chicago we had severe rain.
This affected the comfort of the thousands who crowded the city to receive Grant,—the "Grant boom" is tremendous. We found the city swarming with people, every Hotel abuzz with flags and electric lights and the utmost enthusiasm prevailing. I am not the only one who predicts that the popular feeling will sweep Grant into a nomination when the Republican Convention meets, and every one concedes that Grant nominated is Grant elected.
The favorites among the good democrats for Presidential honors are Senator Bayard and Hancock, and I hear Sherman and Blaine more frequently mentioned among Republicans than any other names.
The revival of trade in the States is universal and most encouraging. Every industry is now being pushed to the utmost.
The staples have risen in price—especially iron, which has gone up 50 pr. ct. in 60 days. A prominent manufacturer of cast iron car wheels in this city tells me that his works are driven to their utmost capacity, and he can only fill the orders of his old customers.
I find that in the States East of the Rocky Mountains Greenbacks of the U. S. or notes of the National Banks, which are equivalent, are the actual circulating medium. That silver is only used for change and as a subsidiary. I rarely have seen more than two dollars paid out in silver at once. Small gold but little in circulation, and the larger pieces of gold, \$20 or \$10, are only found at the banks. Where the paper calls for the gold, the paper, as being lighter and more convenient, will be preferred. I wish our Hawaiian paper or Certificate of Deposit called for gold; they frequently would draw the gold if they were all presented, and they would be as good as the gold if so expressed.
As soon as the silver coinage of the United States becomes sufficient for the circulating medium of the country, it will displace the gold, and then gold and paper will be at a premium or, rather, silver will be at a discount all over the Union. No time will be more opportune for us than the next Session of the Legislature to amend our law and lessen the amount for which silver may be a tender, and to put the gold law vigorously into operation.
I expect to meet Mr. Carter in Washington next week, and to witness with me the unveiling of the statue to Gen. Thomas. I hear that our Minister, Judge Allen, is still at his home in Bangor.
A. F. J.

Mysterious Epidemic in Georgia.
For the past month there has been a fearful disease raging in Polk, Paulding and Harrison counties. The physicians are baffled, and the people are dying with unusual rapidity in this hitherto healthy section. I have asked several physicians what this disease is, and they all say they do not know. One thing is certain—it is a fearful fatal, and seems to continue to spread. One very strange circumstance is that it attacks young men alone. But one old man has yet died. Over fifty young men in the full flush of manhood and strength have fallen victims to the terrible disease. It appears to be of epidemic typhoid fever, but has several symptoms different from those of regular typhoid fever.
As I write, Clark White is being buried, and I saw his corpse. He suffered terribly, and just before he died the blood coagled out of his mouth and ears. His tongue turned very black and swelled terribly. The disease is fearfully fatal. I know one prominent physician who had twenty cases and not one recovered, though all received the most careful treatment. The people here are justly terrified at the ravages of this fearful malady. God knows what it is, but it is causing sorrow in many households and spreading fear throughout the neighborhood from which I write. Physicians hope that the approaching cold weather will check it.—Atlanta Constitution.

MAX ECKART
JEWELLER.
Kashumani Street, Honolulu.
WOULD RESPECTFULLY NOTIFY his Friends and the Island community generally, that he has
JUST RECEIVED
—AN INVOICE OF THE—
VERY FIRST CLASS GOODS
In his line, to which he invites inspection, consisting of
Finest Silver Plated Ware—
A great variety of Patterns, from the celebrated manufacturer of London, England, and of the highest quality.
A Large Assortment of Diamonds—
Both set and unset.
Jewelry, Plain and Enamelled—
Of every variety and style.
Rings, Brooches, Lockets, Charms, Etc.
—An unrivaled assortment of—
WATCHES AND CLOCKS
FROM THE MOST APPROVED MAKERS.
Persons intending to make Christmas or New Year's presents, should call and look at my stock and inquire prices, before purchasing elsewhere.
